PRE-SCHOOL EDUCATION

## ENGLISH CHILDREN'S LITERATURE II

Course code	ECTS	Lecturer	Department	Language of Instruction
ERA52E	4	Valéria Árva <a href="mailto:arva.valeria@tok.elte.hu">arva.valeria@tok.elte.hu</a>	Foreign Language and Literature	English

### MODULE AIMS

Familiarising students with English children's tales and stories, and preparing them for the use of traditional and modern tales in the classroom in the language teaching process. Extending students' understanding of the psycho-pedagogical nature of story/tale telling and its effects on children's psychological development and their understanding of the world.

### MODULE SUBJECT

The definition and classification of tale, and its role in children's holistic development and education in order to make them become future readers. The requirements of the selection of tales for classroom use; the methodological elaboration of different types of tales; listening to tales, adaptation, dramatization, techniques of storytelling and writing, and the creation of story-books for children.
