

## SCIENCE EDUCATION IN ENGLISH IN PRE-SCHOOL SETTINGS

Course code	ECTS	Lecturer	Department	Language
ERA34E	4	Andrea Fenyődi <a href="mailto:fenyodi.andrea@tok.elte.hu">fenyodi.andrea@tok.elte.hu</a>	Foreign Language and Literature	English

### **MODULE AIMS:**

The course aims at introducing the trainees into the theory as well as the practice of teaching science sessions to the very young. It also aims at providing the necessary technical vocabulary of the subject along with general language development and opportunities to experiment in planning and teaching science sessions in the target language.

### **MODULE SUBJECT:**

The trainees will be introduced to the basics of teaching science sessions through a target language to the very young. They will learn about planning science sessions and about the didactics of science/content-based language development. Through preparing a presentation in an area of science they will learn the basic terminology and technical vocabulary and will improve their general language competence. Micro-teaching a science session will provide a possibility for experimenting teaching.

### **OTHER IMPORTANT INFORMATION:**

Closed number, prior to admission departmental contact is required!
