

Hungarian Pedagogy and Innovation: From Early Childhood to Lower Primary

Course code	ECTS	Lecturer	Department	Language
SZABV22-04-01	4	Andrea Fenyódi fenyodi.andrea@tok.elte.hu	Foreign Language	English

MODULE AIMS:

The goal of the course is to provide foreign students an overview of some specific features and innovations of early childhood and elementary school pedagogy in Hungary. In addition to the theoretical foundations, students also acquire practical knowledge that might be adapted in other educational systems.

Students are to be familiar with the main parts and structure of the Hungarian education system, they gain insight into the operation of some types of educational institutions, through their local specifics. They will learn new theories and practical methods, and to interpret individually and discuss in group.

MODULE SUBJECT:

The course is organized with the involvement of lecturers from several departments, each of them being an expert in the target educational field. The course work involves guided discussions, creative practical activities, group project work, thematic presentations, visits to institutions.

Content of the course: Institutions of early childhood education in Hungary. Traditional and alternative pedagogies. Inclusion in education. Education of artistic and creative skills, mathematical skills, physical education. Foreign language development and ethnic minority education.
