### MODULE AIMS

The course aims to develop students' language skills and foreign language communication skills by providing them with basic Hungarian vocabulary, acquiring language turns and grammatical rules necessary for everyday communication. During the course, students will expand the conversational vocabulary used in the most common communication situations and will develop language learning strategies for independent learning. Furthermore, they will get insight into some aspects of Hungarian culture through multimedia materials, games, rhymes, songs and excursions.

**Assessment:** Practical course mark

- Continuous assessment: quizzes and oral presentations.
- Active class participation.
