Foundational Course in Visual Arts / KIDE12B04

Biography:

Pataky Gabriella is the director of the Art Teacher Master's Program at ELTE TÓK University, head of Department of Visual Education and working at the Moholy-Nagy University of Arts and Design in Budapest as well. The aim of her enthusiasm is to continuously renew art education, assist to its adaptation to current professional and social requirements, support the decision-making process in educational matters as well as accumulate and spread knowledge concerning art education and its environment. As one of the IMAG Quartet:: (the group of PrincipalEditors&GraphicDesigner) she is working on InSEA's (International Society for Education through Art) most visual journal to share ideas and connect art educators as co-principal editor. She is one of the three elected world councillors representing Europe at InSEA and one of the board members of the European Network for Visual Literacy (ENViL).

Research Interests:

Her main research fields are visual culture, visual literacy, alternative methods and contemporary art in visual education, multicultural education, development of plastic skills, built environment education, visual rhetoric, design education, development of visual competencies.

She is a founder of the 3.6.12+ Visual Skills Lab, where the research group's current researches seeks to map the spaces of art education and the personal creative spaces.
