

ELTE

FACULTY OF PRIMARY AND
PRE-SCHOOL EDUCATION

Student Affairs Office

Enrollment

Early Childhood Education/Kindergarten Education BA

Time and venue of in person enrollment for student candidates admitted in 2024:

Kindergarten Education BA: 28 August 2024 9:00-15:00

ELTE TÓK Faculty room 136

Address: 40 Kiss János altb Street 1126 Budapest, Hungary

Early Childhood Education BA: 29 August 2024 9:00-15:00

ELTE TÓK Faculty room 136

Address: 40 Kiss János altb Street 1126 Budapest, Hungary

You shall register an appointment for the in-person enrollment. Registration is open from 1 August to 18 August 2024. The registration link is on this website: [Welcome \(elte.hu\)](https://www.elte.hu/welcome)

Early Childhood Education BA & Kindergarten Education BA Study Administrator:

Anita Csáki

e-mail address: csaki.anita@tok.elte.hu

You shall enroll and establish your student status in two steps:

1. online in Neptun
and
2. in person, on the day of enrollment

If you fail to enroll in person on the designated date, your student status cannot be established and your admission shall be considered void.

If you cannot enroll in person on the designated date, you may authorise someone to act on your behalf.

Authorisation form: [here](#)

Documents to bring along for enrollment:

- **Enrolment sheet** (package) printed from Neptun
- **Passport and visa/residence permit**
- **Original of High School Graduation Certificate** (Official English translation to be attached)
- **English Language Certificate (if you have)**
- **Certificate of Good Conduct (if you have)**
- **Original of Health statement submitted during the admission process**
- **An ID size photo**

Health Aptitude

Pedagogical practice can be done in possession of a valid health booklet. The health booklet shall be renewed annually. Kindergarten/nursery institutions must be epidemiologically safe. Therefore, it is

necessary to certify that the person working/doing their pedagogical practice there does not suffer from any infectious disease/does not endanger the health of others. To this end, the enrolled student must undergo and pass occupational health aptitude tests.

The health aptitude tests are organized by ELTE TÓK on 30 August and 3 September.

To schedule an appointment to the doctor/for further details please contact Zsófia Nemes:
nemes.zsafia@tok.elte.hu

Early Childhood Education/Kindergarten Education Programme Curriculum

The 2024 Early Childhood Education/Kindergarten Education programme curriculum is accessible here:
[For Current Students \(elte.hu\)](#)

The curriculum includes all study units to be completed for the degree. Progress in studies is determined by factors like the **recommended semester** and **pre-requirements**.

If a study unit is marked as a **strong pre-requirement** of another, it must be completed first, in a previous semester. If a study unit is marked as a **weak pre-requirement** of another, the two can be completed in parallel, in the same semester. If the pre-requirement of a study unit is not completed, the grade achieved will be considered invalid.
