Primary education	OEMNN1701Z	ősz / tavasz	tanító	The course provides an overview of the primary education system. • Students will be introduced to data of a comparative nature as well as recent trends in primary education. • Close attention will be paid to the transition from pre-primary to primary education, support for pupils with a different mother tongue and gifted pupils, preparation of primary school teachers, etc.	Nevelélmélet	TT22NA06A02	tanító	nem	III
					Nevelélmélet	TT24NA06A05	tanító	nem	III
Teaching Practice I	OEMNN1702Z	ősz	tanító	The course will introduce students to the structure of the Czech education system and pedagogy within Czech state primary schools. The course reflects the specific features of the Czech system where the majority of schools work with the National Curriculum. The course will also provide direct contact with Czech schools and pupils.	Egyéni egyeztetés!				
Teaching Practice II	OEMNN1708Z	tavasz	tanító	• Observe teaching and learning in Czech schools and complete a reflective diary. • Participate in presentations and group discussions led by the course tutor. • Plan and teach a short English language activity to a small group of children. • Complete independent study tasks on Moodle (readings, videos, etc.)	Egyéni egyeztetés!				
Young Childrens Worlds	OEMNN1711Z	ősz	tanító, óvó	The focus of this course is for students to consider how observing young children playing and learning is necessary to support effective learning opportunities as well as children's holistic development. Students will reflect upon their own practice with children so they recognise the importance of high quality early childhood education and care (ECEC) as a foundation for future learning. Students will also be introduced to some of the historical pioneers of early childhood education as well as theories of learning to understand how the past can inform teaching children today. The course is suitable for students studying pre-primary and primary education as well as related subjects in their home universities.	Óvodapedagógia II.	ÓP22NA06A05	óvó	nem	III
