Deadlines

Academic Regulations for Students (Eötvös Loránd University Organisational and Operational Regulations – Volume 2) Section 490:

The deadline for choosing a thesis topic is

- the last day of the third semester term time in Kindergarten Education/Infant and Early Childhood Education BA
- the last day of the second semester term time in Cultural Mediation MA

Preliminary Consultation with the Chosen Supervisor

Preliminary consultation with the chosen supervisor is essential. Otherwise, the supervisor will likely reject the application.

The maximum number of topic applications per student is two. This is precisely why consultation with the supervisor is necessary.

Steps

In **MENU/Studies/Degree thesis** on Neptun Student web, you will see the following. Click **Thesis application start**:

 [Studies](#) > Degree thesis

Degree thesis

You have not yet applied for a thesis topic.

If you would like to write a thesis this semester, start the application process!

[Thesis application start](#)

At the end of the chosen topic's row, click **Register >**

[Studies](#) » [Degree thesis](#) » Thesis topics

[Top of page](#) ^

In the pop-up window, you have the option to type or change the title, but this step is optional:

×

Register

Topic Suggested by Students

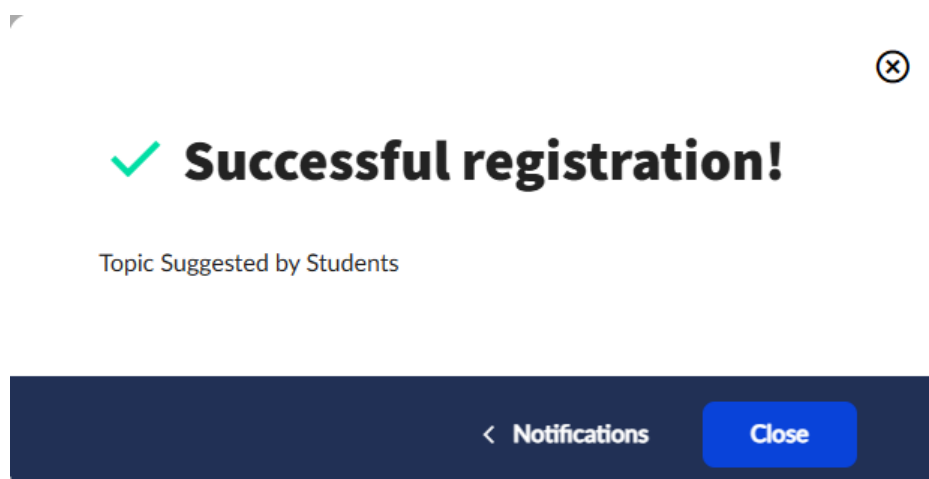

Title

Topic Suggested by Students - [in certain cases, you can rename HERE](#)

[Enter title in additional languages](#) ▼

[Cancel](#) [Register](#)

If you see this, your thesis topic application has been successful:

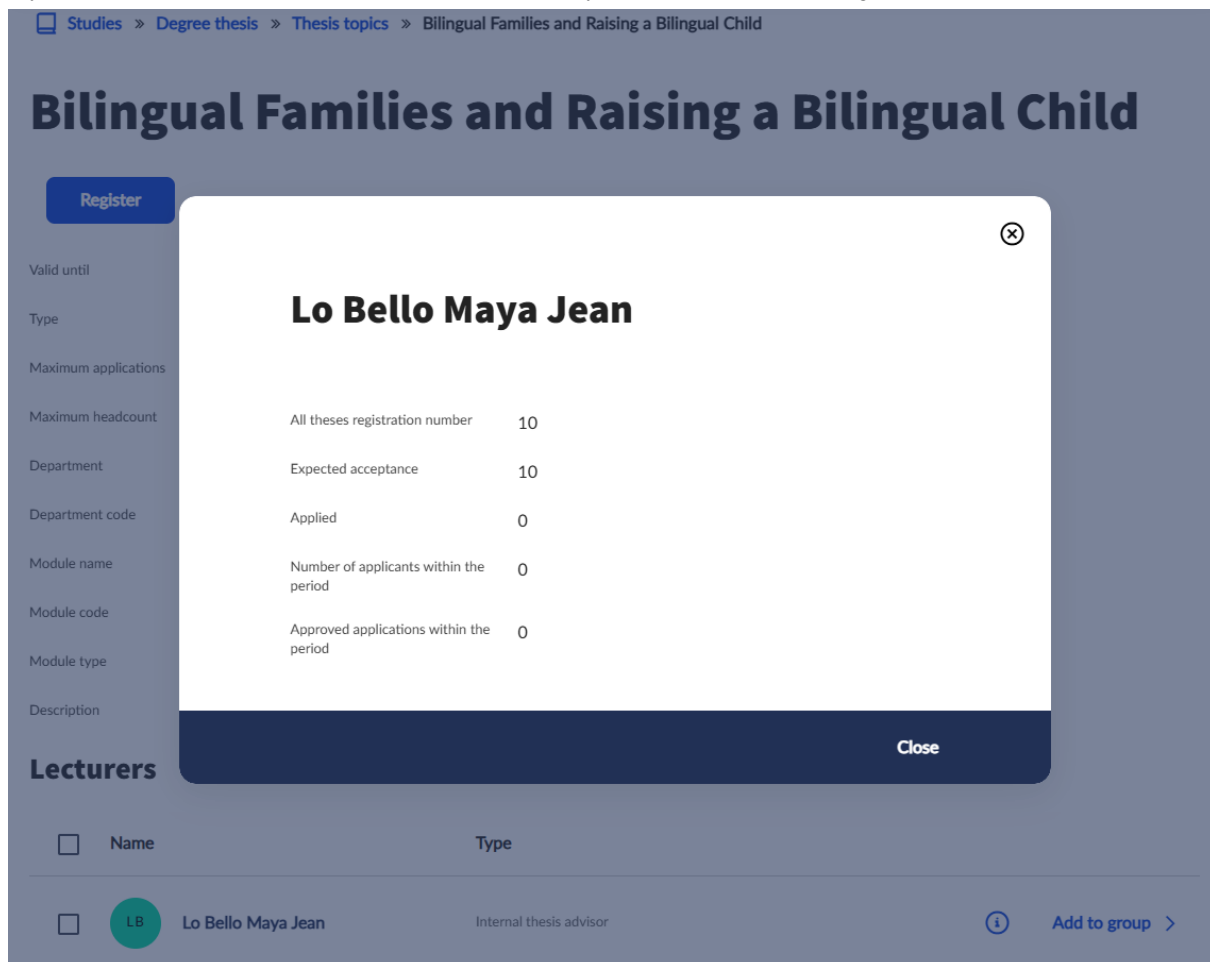

Your thesis topic application will be evaluated by the chosen supervisor. Capacity is a decisive factor in their decision. You will receive a notification via Neptun regarding whether your application has been approved or rejected. Please read the notification carefully.

If your application is approved, no further action is required on your part. If your application is not approved, you must restart the process until you receive a positive evaluation.

Additional Information

If you click a thesis title or the  **Information** icon, you can learn the following details:

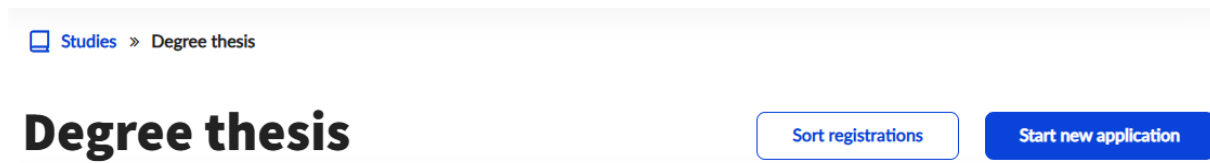

The screenshot shows a web interface for a thesis topic. At the top, a breadcrumb trail reads: [Studies](#) » [Degree thesis](#) » [Thesis topics](#) » [Bilingual Families and Raising a Bilingual Child](#). Below this is the title **Bilingual Families and Raising a Bilingual Child**. On the left, there is a sidebar with a **Register** button and a list of filters: Valid until, Type, Maximum applications, Maximum headcount, Department, Department code, Module name, Module code, Module type, and Description. The main content area displays details for a specific thesis topic, **Lo Bello Maya Jean**. This information is presented in a table with two columns: the attribute and the value.

All theses registration number	10
Expected acceptance	10
Applied	0
Number of applicants within the period	0
Approved applications within the period	0

Below the table, there is a **Lecturers** section with a table. The table has two columns: **Name** and **Type**. One lecturer is listed: **Lo Bello Maya Jean** with the type **Internal thesis advisor**. To the right of the lecturer's name is an information icon and a link **Add to group >**. A **Close** button is located at the bottom right of the details panel.

Changing the Order of Applications

Only one thesis topic application can be eventually considered valid and accepted by an instructor. A student may intend for a later application to count, even though a previous one was already accepted.

The screenshot shows the **Degree thesis** page in the Neptun system. At the top, a breadcrumb trail reads: [Studies](#) » [Degree thesis](#). Below this is the title **Degree thesis**. On the right side, there are two buttons: **Sort registrations** and **Start new application**.

Drag your final choice to the first place.

If you neglect to take this step, and the supervisor does not decline your application either, the chronologically first application will be accepted as your final degree thesis topic.

Change order

You can drag and drop applications to change the order, which can be finalized with the Save button.
