- Location where you are.
- What happened, who needs help.
- Is anyone's life in direct danger.
- Possible number of injured, severity of injuries/wounds.

You must stay there until an ambulance or help arrives!

HEALTH CARE

Every international student studying abroad with the Erasmus+ programme should have the **European Health Insurance Card (EHIC)** in their possession. In case of any health-related issues we advise you to contact your insurance company for guidance before you venture into hospitals or visit doctors.

If you do not have insurance company to call, we advise you to check your local health centre that is designated to the district you are living in in Budapest (you can check the district number in the ZIP code given to your Hungarian address – for example in **1126** the two middle number indicates the district).

On the **following website** you can find addresses to general GPs and state-funded dentists in each district.

When visiting a health facility always have your ID and EHIC with you!
